

In the United States Court of Federal Claims

OFFICE OF SPECIAL MASTERS

No. 20-1554V

UNPUBLISHED

AMBRA RANKINS,

Petitioner,

v.

SECRETARY OF HEALTH AND
HUMAN SERVICES,

Respondent.

Chief Special Master Corcoran

Filed: March 3, 2022

Special Processing Unit (SPU);
Ruling on Entitlement; Concession;
Table Injury; Influenza (Flu) Vaccine;
Shoulder Injury Related to Vaccine
Administration (SIRVA)

Maximillian J. Muller, Muller Brazil, LLP, Dresher, PA, for Petitioner.

Emilie Williams, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On November 9, 2020, Ambra Rankins filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (SIRVA), resulting from the influenza (flu) vaccination she received on November 2, 2018. Petition at 1. Petitioner further alleges that the vaccine was administered within the United States, Petitioner’s symptoms persisted for more than six months, and neither Petitioner, nor any other party, has ever filed any action for Petitioner’s vaccine-related injury. Petition at 1-2. The case was assigned to the Special Processing Unit of the Office of Special Masters.

¹ Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims’ website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On February 27, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Respondent found that Petitioner's claim meets the Table criteria for SIRVA. Specifically, Respondent determined that "[P]etitioner had no apparent history of pain, inflammation or dysfunction of the affected shoulder prior to intramuscular vaccine administration that would explain the alleged signs, symptoms, examination findings, and/or diagnostic studies occurring after vaccine injection; she suffered the onset of pain within forty-eight hours of vaccine administration; her pain and reduced range of motion were limited to the shoulder in which the intramuscular vaccine was administered; and there is no other condition or abnormality present that would explain petitioner's symptoms." *Id.* at 5. Respondent further agrees that the scope of damages to be awarded is limited to petitioner's left SIRVA and its related sequelae only. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
